

Adapt to the COVID-19 New Reality

A free itelligence workshop to bring rapid insight and clarity to succeed and emerge stronger

In a time of unprecedented social and financial distress, we cannot afford to be slow, indecisive or ill-informed – enter Analytics.

Adapt to the COVID-19 New Reality

A free intelligence workshop to bring rapid insight and clarity to succeed and emerge stronger

New threats, new opportunities and a need to adapt to a new reality...

COVID-19 has affected businesses in all sorts of different ways. New opportunities and threats have emerged in the wake of this crisis, and in many cases the entire business model of organisations has needed a complete overhaul in response to COVID-19.

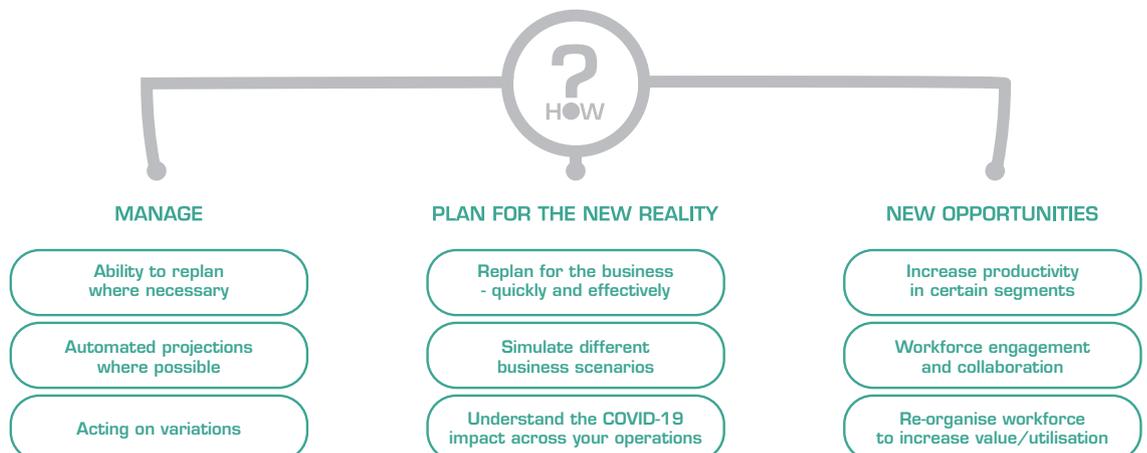

The uncertainties faced by organisations has diminished the value of prior business plans and associated analytics – and in some cases rendered them completely irrelevant.

These new challenges can arrive in the form of a stressed cash flow, unanticipated reductions in revenue, profitability and supply chain disruptions, to mention just a few.

Some of the best innovation can come out of adversity and we have seen companies transform and re-organise themselves to survive and thrive in the face of the immediate challenges presented by COVID-19 and in anticipation of the new reality as they emerge from this crisis.

In these unprecedented times, speed and agility are key. You need to put data and insight at the core of your business to succeed and emerge stronger.

How do you rapidly react to the challenges of COVID-19?

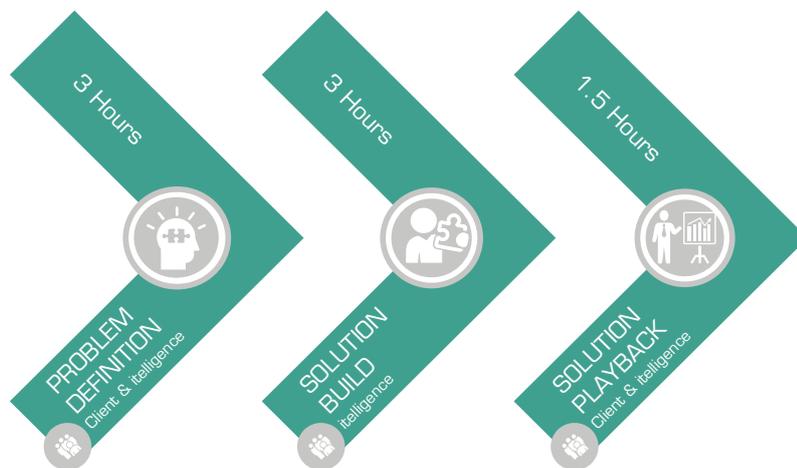

Set intelligence a challenge to solve in just one day...

To support you, intelligence has drawn on their considerable expertise to create a free of charge ‘COVID-19 Rapid Insight’ engagement to discover, design and deliver an “in principle” solution to provide the rapid insights you need. During our structured one-day virtual engagement, we work with your business to identify challenges you are facing in these unprecedented times and

then develop appropriate analytical prototypes to demonstrate potential solutions. There are no software pre-requisites and we will seek to leverage your existing investments in Analytics wherever possible. Once approved, we can help you rapidly move these solutions into productive use.

The insights gained from this engagement will support you in realising new opportunities and circumventing the challenges that you face.

COVID-19 Virtual Workshop to Deliver Rapid Insight

Your benefits at a glance

- Free ‘COVID-19 Rapid Insight’ solution
- Rapid 1-day virtual engagement
- No software pre-requisites
- Leverage existing Analytics investment
- Deliver clarity and confidence to your business

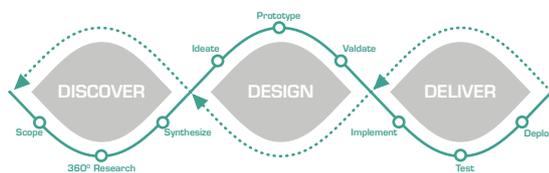

How do you rapidly react to the challenges of COVID-19?

Put data and insight at the core of your business

Solution at a glance

The engagement adopts the Design Thinking principles.

■ Discover

Work with business users to discover how your business has been impacted by COVID-19 and jointly agree the problem definitions. This is designed to be delivered with remote participants

■ Design

Build analytical prototypes to address the challenges faced by the business. This can incorporate business data where applicable

■ Deliver

Review prototypes and associated recommendations with the business users

Following this 1-day engagement, prototypes can be rapidly completed and provisioned for productive use; ensuring your business is proceeding with clarity and confidence.

Why itelligence?

itelligence is a Pinnacle Award-winning SAP Platinum Partner with 10,000 highly qualified employees in 25 countries. We are an NTT DATA company and we focus on SAP solutions to create value for our clients.
